ENVIRONMENTAL REVIEW COMMENT FORM, page 2

Comment continued:

I have not been very impressed with your Native Cultural concerns. This project will go through and possibly disturb at least four grave sites, 7 sacred sites and four of our villages. When I asked questions about this I was sent from one agency to another and our tribe which has Elders, Consultants, Historians and Genealogist has not once been asked to sit down and discuss this project with anyone. We do need an answer to our water problem but please allow the indigenous people of this area to protect our great heritage and culture. We are very happy that you chose Pacific heagey and look forward to working with them, Cal Am and everyone else involved.

Thank you, Rudy Rosales

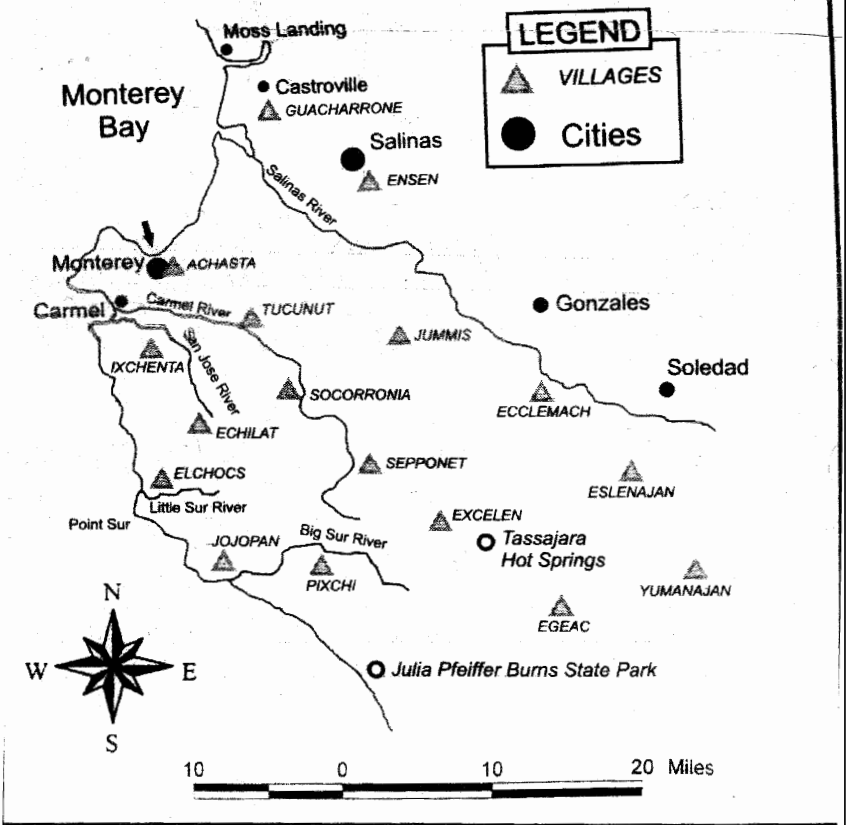

\*We would also like a copy of the EIR Report if possible.

Thank You for Your Participation.
